Develop Your Intuition

This online course covers the basic principles to develop your intuitive skills. These are powerful, magical, and timeless. The course consist of three parts. Step by step you deepen your Intuition, and enhance your healing, reading and leading capacities.

LEARN THE BASICS:

• Part 1 – HEALING

Experience which beliefs and thought patterns prevent you from being fully empowered. Learn to trust your own wisdom and to transform chakra blockages. Heal yourself, and learn to heal others.

• Part 2 – READING

Reading is perceiving colors and images in the aura of another. Trust your first impression, learn how to clarify and express it. Improve your intuition and get more self-insight because your own patterns are mirrored.

• Part 3 – LEADING

In Part I and II you focus on your personal transformation, in this part you connect with your role in the world. Learn to transform pain from events and places with Universal Love. Experience unity, and why oneness with the All begins with you.
