

ADVANCED II 2022 - ONLINE

ECOINTENTION III

BALANCE SOMEONE ELSE'S PROJECT

DO GOOD, FEEL GOOD!

Promote Resonant Leadership and improve the energy of an organization or nature reserve.

Course Management

Your instructors are Hans Andeweg, who provides the Zoom modules, and Rijk Bols, who supervises the student projects. She will also join several Zoom modules. Hans and Rijk are founders of Center for ECOintention.

Project coaches

Jon Marrée and Pieter Wackers

Project coaches are ECOintention Practitioners. They regularly participate in the Zoom modules.

ECOINTENTION III ONLINE

Work at a higher energy level, coach others on the principles of energetic guardianship, and balance an organization or nature reserve.

More confidence and insight

This year you work on someone else's project. Your guardian achieves his/her goals while you balance the project. You learn to understand the balancing process better and to communicate the energetic development. You gain more confidence in yourself, your intuition, and ECOintention. Energy works!

Promote Resonant Leadership

During onsite or online project visits, you will do energetic readings at control points and coach the guardian according to the principles of energetic guardianship. Does he/she have awareness of the whole, a sense of what is going on, and good affirmations?

Energy with a higher vibration

Your personal development is central because this year you are working at a higher energy level. This involves collaboration with spiritual guides and learning how to control your energy with mudras (finger positions). Other topics include numerology and the healing energy of crop circles.

Course management and feedback

Your instructors are Hans Andeweg and Rijk Bols. You will be coached by an ECOintention Practitioner just like you were in ECOintention II. Every 12 days you test the energy of your project.

Master of Science

The ECOintention III course is the 3rd year of the ECOintention Vocational Training. This degree is registered with the Dutch government and accredited by the Ubiquity University in the USA as a Master of Science degree.

Balance someone else's project

Your project can be any organization or nature reserve. You have two projects—one you do alone and one you balance with a fellow student. Center for ECOintention makes an energy scan with you at the start to determine whether your projects can be balanced. Are the goals achievable? In how much time?

Collaborate with a fellow student

Use each other's talents and gain confidence by testing and balancing together. "One plus one equals three" applies here. Test remotely with Zoom or Skype, take turns in balancing.

Coaching and management fees

Your coaching is more intensive because you work at a higher energy level. To keep course costs down and involve the guardian in your balancing, guardians are asked to pay €699 for the year, which is €57.90 per month. Guardians that are your own clients or part of your company pay €1,699 for the year.

Receive the ECOintention Advanced II diploma

The course concludes with submission of a report and a short Zoom presentation to the guardians and the ECOintention community. After joining an ECOintention practice day or module and passing a theory and dowsing test, you are awarded an ECOintention Advanced II diploma.

What?

The course runs from January to November 2022 and consists of 12 Zoom modules of 4.5 hours on Tuesday or Thursday. The design of the modules is comparable to ECOintention II modules. The minimum number of participants is 12.

Course Schedule

- Project energy scans are on 22.02, 23.02 & 24.02.22. You will attend one of the modules in which we make an energy scan of your third year projects with you and other students.
- Participate in Zoom modules on either Tuesday or Thursday. You may switch twice from one day to the other during the course.
- Tuesday 8:30 AM - 1:00 PM CET on 25.01, 01.03, 29.03, 19.04, 24.05, 14.06, 05.07, 13.09, 11.10 & 15.11.22
- Thursday 5:00 PM - 9:30 PM CET on 27.01, 03.03, 31.03, 21.04, 25.05, 16.06, 07.07, 15.09, 13.10 & 17.11.22
- Project presentations are on 13.12, 14.12 & 15.12.22

Costs

The ECOintention III online course costs €2.099, which includes course material and monthly personal project coaching (12 x €99) for the year.

Participation

You are qualified to enroll in ECOintention III if you participated in an ECOintention II course, joined an ECOintention Practice Day or Module in 2021, and have completed three blocks of Intuitive Development training or something comparable. (This part can be completed in 2022).

Note: Center for ECOintention starts an online Develop Your Intuition course in spring 2022.

EXPERIENCES OF ECOINTENTION III STUDENTS

“I always joined the course with pleasure and always was very satisfied at the end of the day.”

“It was particularly interesting to balance and coach a project of someone else. An exercise in letting go. “

“It is very instructive to balance a project together. It also gave me more confidence. “

“The advantage of balancing together is that you can use the talents of the other person.”

“I experienced this course as an opening to a certain lifestyle and vision in which I got to know myself better in dealing with energies and feelings towards others.”

“For me, ECOintention is making visible what is invisible to many. ECOintention teaches you a greater awareness of what is.”

“It has been a fantastic and special year again! I gained a lot of experience and learned a lot. “

“ECOintention III was another great experience!”
